

ABOUT EASYCARE2GO:

The movement
that's redefining
healthcare access
in America.

DR. CLIVE FOWLER

Imagine a **Healthcare experience** where compassion replaces red tape.

Where **access** isn't determined by your job title, income, or insurance status, but **by your humanity.**

**That Future isn't just possible—
It's happening now,
with EasyCare2go.**

**We're
not just
a Virtual
Healthcare
Company.**

**We're a
National
Movement!**

EasyCare2go is transforming how individuals, families, and organizations experience care—on demand, without gatekeepers, and without barriers.

Through our innovative mobile platform, **members gain 24/7 access to board-certified doctors**, mental health professionals, and free or affordable prescriptions.

- ✓ No insurance required
- ✓ No pre-approvals
- ✓ No denials based on pre-existing condition

What sets us apart?

We've stripped healthcare down to what matters most: care itself. **Starting at just \$53.95/mo**, covers your entire family with non-emergent healthcare and discount hygiene care. **We've already helped thousands of members** get the attention they deserve—without delay, without paperwork, and without the fear of unexpected costs.

“But here's where **you** come in.

If you're an employer, an association leader, a nonprofit director, or a civic leader—ask yourself:

- 1. What would it mean to provide healthcare that meets people where they are?**
- 2. What if your team, your members, or your community could access healthcare help without missing work, standing in line, or battling deductibles?**

EasyCare2go exists to Make that Vision a Reality

Virtual-first care with real human connection

Mental Health Support when life feels overwhelming

Prescription savings that relieve both symptoms and financial strain

Bilingual, multicultural access to care reflecting the people you serve

Physical clinic options when in-person help is needed

Physical diagnostic testing when in-person labs are needed

Physical Hygiene-Health when dental, vision, and hearing care are needed

Virtual Veterinary Care for furry family members when needed

This is more than convenience

This is equity

This is dignity

This is the future

While traditional healthcare waits for people to “qualify,” we invite them to belong.

Organizations that partner with us **are making a statement:**

They care about well-being, not just in theory, but in action. They understand that access to healthcare is the foundation for productivity, retention, morale and trust.

Individuals who **join EasyCare2go** reclaim control over their health and

peace of mind— no matter their insurance status, background, or ZIP code. Now's the time to break from the old model.

It's time to Join a Movement that says:

“You don't need permission to take care of yourself.”

EasyCare2go is more than a membership.

It's a declaration that **everyone deserves care** that's timely, trustworthy, and tailored to real life.

Ready to partner?

Let's build a healthier future—**together.**
